

8-step guide to wedding day drinks planning

For
2021-2022

1) Consider the number of drinking guests

Calculate 1.2 drinks per person per hour. We are here to help you source your drinks and figure out how many you need to order.

2) Consider the ratio of male vs female guest

Males tend to drink beer, women tend to drink wine, bubbles & cider. We have established partnerships with local breweries and wineries that provide us with very friendly pricing.

We are also happy to approach any provider of your choice and investigate the prices of your desired drink.

3) Consider the type of drinkers your friends and family are

If the majority of your friends love to party hard you may want to consider calculating 2 drinks per person per hour.

4) Consider offering soft drinks

We recommend budgeting around \$100 per event for up to 100 people. This covers several types of soft drinks and juices.

Our standard mix is coke, coke zero, lemonade, soda water, OJ, apple, pineapple and cranberry juice.

5) Consider offering cocktails but...

Cocktails are potent drinks. Consider limiting them to 1-2 hours of service to ensure your guests remember your special day. :-)

6) Consider serving from glassware instead of single-use cups

Serving from our own glassware is our preferred sustainable option. A sexy commercial glasswasher is a proud part of our Little Tap Trailer.

Glasses will make your drinks taste better and our environment will thank you for it.

7) Consider the start of service

We recommend holding off the drinks until the service is finished. You may however offer soft drinks or low alcohol beers.

8) Consider a bar for your 2 day staycation

This is a great opportunity for guests who don't know each other to mingle the day before and break the ice, or distant relatives to catch up over a couple of pre-wedding day drinks.

If it's the day after the wedding, what better way than to celebrate the momentous occasion.

About Little Tap Trailer

Little Tap Trailer is a 12-tap draft bar on wheels that can come to you anywhere. It makes your wedding, engagement party, work function or birthday the smoothest and coolest event you'll ever have.

With easy flowing drinks and your guests being taken care of by us, you can sit back and enjoy the company.

TESTIMONIALS

"Highly recommend Ado and his team! they are an extremely organised and fantastic service, all the way from the planning before our wedding to the day of. They are very well connected with breweries and wineries which means you have a huge range of drinks to chose from, and on top of that also helped us find the perfect cocktails. I would say almost as affordable as buying all your own alcohol, except you also get the bar service and don't have to worry about keeping things cold, transport, storage, service, or glassware because they do it all!! We would definitely use Little Tap trailer again. Very happy customers!" - Julia Carr

"We had the Little Tap Trailer booked for our wedding at Assembly Yard in Fremantle, the trailer looked awesome in amongst the rest of the wedding furniture and vendors. The beers were cold and sourced from multiple different breweries at a great price. The team were efficient and there was no wait for drinks for our guests. The deals the team can get for keg/wine returns are also good as we over catered some white wine. Communication from Adrian was awesome and we were never in doubt that the drinks for our wedding were in good hands. Highly recommended the little tap trailer and would use again for functions or events." - Cory Downes
